Table ware, chairs, &c., &c. Then they will FURNITURE, consequently, we have been forced to keep always on hand a well selected stock of plain FURNITURE, at calculating prices for cash or approved paper from the best part of a credit, so that we can be purchased at our low cash prices, by persons, in need of the articles, from the first to the end of the year, and they will find it to their advantage to call on us before purchasing elsewhere. Having made extensive preparations for the present season, we are now prepared to offer inducements to the trade to purchase--paying particular attention to a good assortment.

It would be a useless task for us to attempt to enumerate all the articles now on hand, but we will call your attention to a few, as follows

The Chain Pump.

Decidedly the cheapest and most durable pump ever invented, and we can safely recommend it to perform well when put up by us. We are prepared to furnish Iron, Zinc, or Wood, at very low prices.

Atmospheric and Suction Pump.

This description of pump is generally well known, they are not as liable to get out of order, as other pumps, and are cheaper than the force pump.

The Suction and Force Pump.

A most excellent pump upon the same principles of the Atmospheric pump, capable of lifting water thirty three feet, and then forcing it fifty or sixty feet, from a small cistern. The last six feet pump is also liable to freeze and burst, as the valve is raised by elevating the lever after pumping.

Earthen Tubes,

A new invention for sewerage and drains, coming only six or eight inches under ground, and very durable. certainly the best and cheapest drain ever invented.

A Large Supply of
METALLIC BURIAL CASES

of all sizes, from twenty two inches to 7 feet long, ornamental and plain finish, covered with fine cloth and trimmings, &c., of every color and quality.

Having a hearse now running in our city, proven by trial to be a great improvement for preserving the remains from decay, and a preference given them over the old style of wagon box. The increased demand in our city, vicinity and surrounding counties has induced us to procure a hearse of our own, which together with a number of Carriages are ready at all times and on reasonable terms, and can now, and will in fact, be able to offer inducements to all wishing to purchase--paying particular attention to a good assortment.

It would be a useless task for us to attempt to enumerate all the articles now on hand, but we will call your attention to BUTTERTUBS, at finding a desire to benefit the public, we venture to call attention to a very

Frankfort, May 20, 1854.

THE WHIG PARTY NO MORE.—The following from the N. Y. Herald of the 27th meets so well with our views that we publish it in our paper. We were about writing on the same subject.—But this is better, and we ask our readers to peruse it carefully:

The anti-slavery agitators are defeated. The final passage of the Nebraska bill appears to have stunned and confounded our abolition organs. They are taken all aback, and are beating about at random as if sorely puzzled in which direction to strike. The most virulent of the gang falls upon the leading Southern whigs—Clayton, Badger, Pearce, Dawson, Toombs, and others of the Senate; and it says, that 'in respect to the Northern traitors who have co-operated in this deed, language fails to express our detestation of their infamous conduct.' And a mighty appeal is made to the people of the North, without 'distinction of party,' to enlist themselves 'under one banner,' to resist 'the invasion of free territory by the slaveholders of the South.' Directly to this point, our leading oracle of Sewardism emphatically declares, that 'in view of the great issues before us, we throw all party considerations to the winds.'

In connection with this declaration, the closing scenes in the Senate of the United States upon the Nebraska bill, confirm the dissolution of the whig party. The violent controversy upon the floor, between Mr. Bell, of Tennessee, on the one side, and Mr. Toombs, of Georgia, and other Southern whigs who supported the bill, on the other side, was terminated in the formal separation of Mr. Bell and the Missouri compromise whigs, even of the South, from those whigs co-operating in the repeal. It is difficult to read the closing debates upon the final ratification of the House bill in the Senate without arriving at the fixed conclusion that between the free soil whigs of the North and the Nebraska whigs of the South there is now an impassible barrier, and that in the re-organization of political parties for the campaign of '56, the mass of the whig of the North will be arrayed in hostility against their late brethren of the South. There is no visible or probable contingency upon which they can ever be re-united—none in the world,

Here, then, we have the first fruits of the Nebraska bill. It utterly demolishes the last vestige of a chance for the re-construction of the materials of the late great whig party upon the same general platform. The die is cast—the Rubicon is crossed, and the unanimous vote of the Northern whigs in Congress against the Nebraska bill, and the exciting closing scenes in the Senate significantly warn us of the meaning of this 'throwing of party considerations to the winds.' It admonishes the Union men of the country of the speedy mustering, upon the basis of Sewardism, and the anti-slavery debris of the late Northern whig party, of a grand combined anti-slavery organization throughout the Northern States in open hostility to the institutions of the South, until Southern slavery is put down, or until the Southern States are driven to secession—till the two sections of our present Union are hurried into civil war, and the two races of our population are exasperated into the horrors of another St. Domingo rebellion. Such is the drift of the new party programme as laid down by the confidential oracle of Sewardism, which simply means a junction of abolitionism with all the other treasonable abominations of the day, against the good order of society and the peace of the Union.

The *pronunciamento* has gone forth—the whig party is extinct—its materials in the North are to be made the nucleus of a great overshadowing abolition party, while the conservative whigs of the South may go over to the new democratic party, to the administration, or to the devil, as soon as they like. Clayton, Badger, Pearce, Dawson, and even Crittenden, have been given their walking tickets; they are at liberty to go and shift for themselves, wherever they please, and as soon as they please. The controlling Seward division of the late national whig party has formally excommunicated them in the lump—in detail. They are adrift upon the high seas, an I legel prizes to such political wreckers as may choose to pick them up. The re-union between the whigs of the North and the whigs of the South is now utterly hopeless. The party is disbanded for good—forever. The Northern branch is to be made the basis of an overwhelming Northern anti-slavery party. But where are the Southern whigs to go? When Mr. Webster was left alone in Tyler's Cabinet, he asked "where am I to go?" And we repeat the inquiry in behalf of the Southern whigs—Where are they to go?

☞The ladies of the Episcopal church will give a strawberry supper in the upper rooms of the Court House to-night. We promise all who may go a most agreeable entertainment. The strawberries and other *etceteras*, will not be the greatest attraction of the evening. Ladies, lovlier than the boquets they crush in their hands, eyes brighter than the jewels which adorn their snowy necks, smiles as warm and genial as the hearts from whence they spring, lips more beautiful in hue than the ripe blushing fruit they offer, will greet all who may favor them, and the good cause for whith it is given, with their presence.

Go, then, one and all, and if you do not receive a bounteous reward in the receipt of some of these *luxuries* we have mentioned—why then, demand the money back, and we'll pay it, and take our endorsement out in smiles, and the approbation of a clear conscience.

REASON FOR DIVORCE.—A woman sued for a divorce in Indiana, on the ground that her husband's feet were so cold it distressed her. This was her sole cause for complaint.

☞The Washington National Monument has reached the height of one hundred and fifty-four feet, and has cost about $230,000. An appeal has been made to the public by the board of managers who say 'that the funds are now nearly exhausted, and that if the patriotism of the people of this country does not supply the necessary contributions, there is a great apprehension entertained of the discontinuance of this great national work.'

☞'The Spiritual Universe' is the title of a new paper advocating the spiritual wrappings, and published in Cleveland, Ohio. Although claiming to be quite ethereal in its contents, it has a villainous smell of printer's ink, and the devil appears to have quite as much to do with it as he has with the common run of papers.

TRIAL OF A MURDERESS.—At Troy, N. Y., on Monday last, the trial of Mrs. Robinson, for poisoning Timothy Lanagan, and Caroline Lubee, and causing death, was began but not terminated. When she entered the Court room, she attracted all eyes. She was richly and fashionably appareled, wearing an elegant black silk dress, white hat, trimed with artificials, and spotless white kids, which betrayed a very pretty and delicate hand. Her face was shrouded with a blue veil from the time she entered the Court room until she left it.

In person Mrs. R. is not above the medium height, is very erect and sprightly, and has a fine figure. We say, also, judging from her disposition to coverse with her counsel, that, she has a talleut for talking. She manifested considerable interest in the proceedings which were going on.

☞An abolitionist of the Senate became omeniferous just before the passage of the Nebraska bill. It was fit, he thought, that it should pass on the the day of solar eclipse. It was a decided hit. The sun was to be obscured for a moment by a dark body, and the political world by one eqully dark, and a good deal woolly. The latter will be about as insignificant as the former. One will have to look through a smoked glass to discover that there is anything unusual.

☞The Indiana State Sentinel gives, from reliable data, the population of the principal cities and towns of Indiana. In this statement New Albany is set down as containing a population of 17'000; Indianapolis 16,000; Madison 14,000 Evansvillo 10,000; Lafayette 9'000.

CLOTHING.—Our cleverest of friends A. Sonnaberg has just received a very fine and extensive stock of Gents clothing for summer wear.—We have looked over his stuck and can testify as to quality and price. The former is first-rate and the latter very low. He is one of the cleverest fellows in the world, and always disposed to accommodate his customers. All who deal with him have found it so, and all who may hereafter favor him with calls will not regret it. Give him a call and try for yourselves!

☞When a Kentucky Judge some years since was asked by an attorney upon some strange ruling, 'Is that law, your honor?' he replied—'If the court understands herself and thinks she do, then it are!'

☞Mr. W. N. Pettitt declines being a candidate for county Assessor at the August election; he having children in California and not knowing at what time he may be called upon to go to that State.

A HANDSOME TESTIMONY.—The Queen of Spain has presented, through Secretary Marcy, a silver speaking trumpet to Capt. Barrows, of the American ship Zenobia, for his noble conduct in rescuing the crew of the Spanish ship Perseverancia, sunk off Cape Horn by a collision.

KATE DARLING MARRIED.—Miss Kate Darling was married at Memphis on Monday evening last, to Madison M Yates. After 'Sweet Katy' has been sung under a thousand starry skies, by moon-struck lovers, 'breathing like a furnace;' after being thumped over a thousand pianos, by misses sighing to be like her; she has gone the way that all girls would like to go—in to a husband's arms.

A WOMAN SHOT.—On Sunday week, in 'the Knob region of Boyle county, a Mrs. Clemmons was shot by a man named John Lamb, the ball taking effect in the hip, and making a serious though not dangerous wound. Lamb gave himself up on Tuesday, and was tried before an examining court, which held him to bail in the sum of $300 to answer at the next term of the Circuit Court, in default of which he was committed to jail.

☞Lines written on the death of Sarah Ellen Cox, by Louisa Welch, Franklin co., March 20, 1854:

Weep not for the Dead.

Weep not for her, for she was far too fair,
Too pure to dwell upon this guiltstained earth
With her brown eyes, and soft and golden hair;
She has been beautiful ever since her birth.

Weep not for her,—for she is still alive;
Although she's left this busy hive,
Though they have laid her 'neath the lowly sod,
But her pure spirit is with its God.

Weep not for her,—think not on her early grave.
But think of Him that has died to save,
And let that comfort a mourning heart,
And let thy sorrow with the dead depart.

☞The editor of the Pittsburg Post has turned type-setter. His first effort appeared under his editorial head a few days ago, and will be found below. He will, no doubt, be 'one of them,' some of these days:—

NeW priNteR.

this is our effort at typesetting.—we presume that it will show that we can learn fast.

we are self-*taught* too. We Want no help, we will have it *right* without assistance. The proof will need no corection, we don't intend to try it every day, but we will let the druters know that we are one off them.

talk about the ART of drinting! It is just as easy as rolling off a log.

☞It is stated that a word hurts nobody; nevertheless, Sampson jawed a thousand Philistines to death.

A YANKEE PARLOR.—A Western orator, in a late swang-wang address to the unterrified voters of Cornopolis, said that to save his country a patriot should be willing to die even if it cost him his life. It is unnecessary to state that this sentiment met with a triumphal echo from the assembled multitude.

GLORIOUS.—The citizens of Bath, a small town in Bath county, Va., succeeded in obtaining from the last Legislature, an amendment of their corporation charter, giving them the right to elect trustees and other corporation officers.—The passage of the bill gives use to great rejoicing on the part of those concerned. A public meeting was called to give expression to their feelings, and a number of congratulatory resolutions were passed. We give a specimen, by copying two of the resolutions passed:

Resolved, That we regard the victory achieved in the passage of this bill, equally signal and glorious with that achieved by the illustrious sires of '76—differing only in magnitude, but involving the same endearing principle, Liberty, and therefore, to us, a second Declation of Independence.

Resolved, That we hail with delight and joy the beaming star of hope that now stands in the blue expanse above us, reflecting her light upon our hitherto down trodden town, dissipating the murky darkness that has so long enveloped us, and pointing directly to the erection in our midst of a first class Hotel with all its glorious concomitants, which in their development shall cause a thrill of joy to penetrate to the most adamantine heart, and give a new impetus to every species of enterprise among us!!

THE REIGN OF ART.—In this wonderful age, Art lays her master touches on almost every thing. The ceilings over us and the carpets we tread on, are hallowed by Art. Art winds the railway through the mountains and the mud, makes her machines of wood and iron, to act as if with knowledge and annihilates space with lightning tamed down to the tutelage of a boy. Nothing is too lofty for her touch and nothing too humble. A new proof of this old conviction, has just fallen under our notice, in the shape of a CATHARTIC PILL, from the Laboratory of that world-renowned Chemist Doct J. C. AYER.

If we understand the subject, he has carried that article to the farthest perfection of which it is capable. Instead of employing Drugs in its composition, as we had always thought the necessary and only way, he has with consummate skill extracted the *virtues* of the medicines to be employed and combined them alone in their purity together. The composition is then mixed and rolled by machinery and steam power, into a sperorl pill which is wrapped in an envelope of gelatine, for protection from the effects of weather or time, and then thickly coated with sugar, to serve as its passport over the palate. Notwithstanding all this laborel perexction they are offered to the public at less than one cent each. However humble the department, we think this may be safely characterized as the consummation of Art in its line.—*Morning News, Balt.*

WASHINGTON, May 29.

HOUSE.—The House took up, in committee, the Pacific railroad bill, as reported some time since, and after a short debate adjourned.

SENATE.—After reading the bill in regard to consuls, it was laid over till to-morrow, and after a short executive session the Senate adjourned.

WASHINGTON, May 30.

SENATE.—Mr. Gwinn introduced his joint resolution, that Congress adjourn finally July the 3rd.

Mr. Dawson proposed an amendment that Congress take a recess until the 3rd Monday in October.

Mr. Gwinn accepted the suggestion.

Mr. Clayton advocated the passage of the original resolution.

HOUSE.—Mr. May submitted a resolution requesting the President to communicate the correspondence of the Minister of Turkey with the State department. He believed Mr. Spence had been unjustly assailed for his speech when he delivered his credentials, and he therefore wished an authentic copy of the correspondence. The resolution was passed.

The House then went into committee on the Pacific railroad bill. Garrett smith spoke against it on the ground that the government proposed to build the road.

The committee then rose, reported the bill to the House, and adjourned.

BUFFALO, May 29.

This morning a report from a special committee on the system of benevolence was read. It strongly urges the importance and duty of churches to make greater efforts to increase christian benevolence.

WASHINGTON, May 29.

HOUSE.—Mr Faulkner asked leave to offer a resolution that the committee on Judiciary be instructed to enquire into the facts connected with the recent death of James Batchelder, Deputy Marshal, alleged to have been murdered in Boston on Friday night last, while engaged in enforcing the law against a violent and treasonable mob, and directing the committee to report a bill making a proper provision for his widow and children.

SENATE.—Mr Gwin offered a resolution providing for the final adjournment of Congress on Monday, July 31, which was laid over. The Indian appropriation bill was then taken up, and several small amendments adopted and then passed. The deficiency bill was received from the House and taken up. Mr Hunter moved the Senate insist on its amendment, which the House had rejected. After debate, the motion was agreed to, and a committee of conference asked. On motion of Mr Gwin, the Senate took up the bill authorizing coining of $10 $5 and $5 eagle pieces.

NEW YORK, May 29.

A terrible disaster occurred at Hoboken yesterday afternoon. The drop bridge at ferry landing broke down, while an immense concourse of persons were on it, waiting for the 5 o'clock boat, and hundreds of men, women and children were precipitated into the water—many were seriously injured, and some, it is believed drowned. No bodies have been recovered yet.

BOSTON, May 29.

The case of the fugitive Burns continues to agitate the public mind. Indications of an organized attempt to lynch the Rev. Theodore Parker and Wendall Phillips, who are looked upon as the instigators of the recent outrages has induced the Mayor to detail a strong police force for the protection of their persons and property.

There was no outbreak yesterday.

The Court House square was cleared last night, and the Court House surrounded with fences of rope, with one hundred United States troops garrisoned there, and two companies of Boston military garrisoned in the City Hall.

Hand bills were circulated yesterday denying the report that Col. Suttles had sold the fugitive Burns for $1200 The money was raised and offered him, when he demanded more, and the bargain was broken. The Commissioner advised him to take it. Printed notices were left in every church pulpit this morning, requesting prayers for the escape of Burns from his oppressors.

The abolitionists are very active in getting up secret meetings and large delegations are expected from Salem, Worcester, New Bedford, and other places to-day. One thousand pistols, principally revolvers, are said to have been sold by dealers on Saturday. An inflamatory circular, addressed to the yeomanry of New England, has been widely circulated in the country towns by the vigilance committee of Boston. The country people are requested to come to the city today to witness the sacrifice, and then go home and take such action as manhood and patriotism may suggest.

The funeral of Jones Batchelder, killed during the riot of Friday night, took place yesterday afternoon. There were but a few present except the deceased's immediate friends.

Sunday, 11 o'clock P. M.—A mob of 100 persons have been in the vicinity of the court-house all day. The entrances are guarded by the Marshall's officers and all of the doors and passages leading to the room where Burns is confined, are guarded by United States troops. The court-house resembles a garrisoned fortress. The feeling expressed by the citizens, at the exhibition of such a scene, is anything but favorable to the fugitive slave law!!

The Rev. Theodore Parker and Wendell Phillips have applied to the police for reinforce to protect their residences, these worthies being fearful of a tumored attack by the Irish, to revenge the death of Batchelder. No demonstration has yet been made.

The Washington Union says the President has telegraphed the Marshal of Boston that his conduct is approved, and the law must be enforced.

BOSTON, May 30.

A petition to Congress to repeal the fugitive slave law was placed in the Exchange Reading Room to-day. There are already a large number of signatures to it, including many well known merchants, who, a few years since, were among the most prominent and active upholders of it.

The feeling of the community against the rendition of Burns is growing deeper, and is controlled only by respect for the laws of the land.

THE TRIAL.—After examining the witnesses for the fugitive, the record of ownership of Burns by Col. Suttle was produced. The Court then took a recess, and at 4 o'clock the proceedings were resumed, when Mr. Ellis, counsel for Burns, proceeded in defence and continued his argument until 6 o'clock last evening when the Court adjourned until this morning.

INCIDENTS. In the afternoon, the, freedom club from Worcester, having attracted some considerable attention, and some cheers, one of the leaders attempted to address the crowd from the Court House steps, when he was seized by the police and conveyed to a station house; subsequently the club marched around the station house, and on attempting to repeat the movement, their banners were taken from them and the club dispersed.

The crowd about the Court-house at 5 o'clock could not have been less than 10,000.

The Light dragoons were on duty awaiting orders, also the City Guards and Independent Cadets. Two companies will be quartered in the City Hall during the night. The U. S. troops remain in the Court-house the mayor and alderman held a meeting this afternoon but transacted little business. The aldermen were almost unanimously for dismissing the military, but the major who has the sole power disagreed.

The members of the Worcester Freeman's Club assembled at the Tremont Club Temple, when inflamatory addresses, tending greatly to increase the excitement, were made by Garrison and others. One Dr. Mitchell, of Worcester, presided, and seemed much excited, and called for volunteers to aid in Boston Corner, who was willing to serve a writ of *habeas corpus* to take the slave from the U. S. Marshal, provided he could be sure of sufficient aid, but very few were willing to sign their names to the agreement to that effect, though a large number rose from their seats in answer to the call.

Cheers were given Gov. Washburn and a number of other police functionaries.

The vicinity of the course is (9 o'clock, P. M.) quiet, and much credit is due to Mayor Smith and Chief Taylor for their well directed efforts to preserve the peace of the city.

BOSTON, May 30 P. M.

The examination of the fugitive slave was resumed this morning.

Mr. Ellis continued his argument in behalf of the negro.

BOSTON, May 30, M.

The examination of the slave Burns is proceeding. The court room is less crowded and the excitement outside is subsiding. Mr. Ellis is still speaking in behalf of the fugitive.

BALTIMORE, 30.

New Orleans papers of Wednesday are received. They contain Texas news to the 21st.

The Court Martial for the trial of Dr. Steiner, adjourned on account of the non-appearance of the prisoner, who was still in custody of the civil authorities.

NASHVILLE, May 29.

The cholera broke out here yesterday. Fifteen deaths are reported.

THE BRIDAL

BY A CONFIRMED BACHELOR.

Not a laugh was heard, nor a joyous note,
As our friend to the bridal was hurried;
Not a wit discharged his farewell shot,
As the bachelor went to be married.

We married him quickly to stun his fright,
Our heads from the sad sight turning;
And we sigh'd as we stood by the lamp's dim light,
To think him not more discerning,

To think that a bachelor free and bright,
And shy of the sex as we found him,
Should there at the altar, at dead of night,
Be caught in the snare that bound him.

Few and short were the words we said,
Though of wine and cake partaking;
We escorted him home from the scene of dread,
While his knees were awfully shaking.

Slowly and sadly we marched adown,
From the first to the lowermost story;
We never have heard from or seen the poor man,
Whom we left alone in his glory.

☞Whilst glancing leisurely over Laurence Sterne's master-piece of satire, 'Tristram Shandy,' our eye was attracted by the following graphic description of a poor typo.

THE POOR PRINTER.—'I pity the printer,' said my uncle Toby.'

'He's a poor creature,' rejoined Trim.

'How so?' said my uncle.

'Because in the first place,' continued the corporal, looking full upon my uncle, 'because he must endeavor to please everybody. In the negligence of a moment, perhaps a small paragraph is inserted and he is alas, roused.'

'Too much the case, Trim,' said my uncle with a deep sigh.

'And please your honor,' continued Trim, 'it is not the whole.'

'Go on, Trim,' said my uncle, feelingly.

'The printer, sometimes,' pursued the corporal, 'puts upon a piece that pleases him mightily; he thinks it cannot but go down with his subscribers. But, alas! sir who can calculate the human mind?

He inserts it, and all is over with him. They forgive others, but they cannot forgive the printer. He has a host to print for, and every one sets up for a critic. The pretty Miss exclaims, 'why don't you give us more poetry, marriages and *bon mots*—away with these pieces.'

The politician claps his specks upon his nose, and reads it over in search of a violent invective; he finds none, takes his specks off, folds them, sticks them into his pocket—declares the paper good for nothing but to burn. Every one thinks it ought to be printed for himself as he is a subscriber, and yet, after all this complaining, would you believe it, sir, said the corporal clasping his hands beseechingly, would you, sir, there are some subscribers who do not hesitate to cheat the poor printer out of his pay! One army swore terribly in Flanders, but they never did anything so bad as that.'

☞As a SPRING AND SUMMER MEDICINE, Carter's Spanish Mixture stands pre-eminent above all others. Its singularly efficacious action on the blood; its strengthening and vivifying qualities: its tonic action on the Liver; its tendency to drive all humors to the surface, thereby cleaning the system according to Nature's own prescription; its harmless, and at the same time extraordinary good effects, and the number of cures testified to by many of the most respectable citizens of Richmond, Va., and elsewhere, must be conclusive evidence that there is no humbug about it.

The trial of a single bottle will satisfy the most sceptical of its benefits.

Certain Cure for Scorbutic Eruptions, Cutaneous Diseases, Bad Legs, Ulcers and Sores.—It is an undisputed fact that Holloway's Ointment is the only one which is in its effect infallible. Cases that the most eminent medical practitioners have despaired of relieving, immediately yield to its curative powers, and when used in accordance with the printed directions which accompany each pot, with Holloway's Pills, the two combined thoroughly eradicate the most pestilential diseases, and leave the sufferer without a blemish.

ASHLAND.

Great Sale of Lots in the Town of ASHLAND, KY.

THE *Kentucky Iron, Coal and Manufacturing Company*, will make their first sale of town lots in the town of Ashland, on *Wednesday, the 14th of June, next*.

Ashland is located in Greenup county Kentucky, immediately on the Ohio River, at the point where the Lexington and Big Sandy Railroad, first strikes the valley of the Ohio, about five miles below the mouth of Big Sandy River. The location is one of peculiar beauty, and admirably adapted to the building up of a fine city. The river front is fully three miles, and the width nearly a mile. Natural terraces entirely above the highest known floods, nearly equidistant and paralled with the river, run through the whole bottom, rising in gentle succession above each other, and serve as natural avenues which produce a panorama of striking beauty. A finer landing for steamers of the largest class, at any stage of water, cannot be found on the Ohio River.

Under a corps of competent engineers, Ashland has been laid out with reference to all the wants of a large city; with wide streets, an extensive park, squares for market places, schools, churches, etc., and in fact with every advantage which considerations of utility or taste would suggest.

One great purpose of the Company is to aid and assist in building up Ashland into a large manufacturing town, and to make it the seat and centre of trade, which its central position with regard to the great Iron and Coal region of Kentucky and Ohio should and must eventfully command. The Company already own about two thousand acres of real estate, one half of which is river bottom, and the other consisting of Coal and Iron lands of the best quality, out of which they have resolved to make the most liberal donations both of sites and coal to respectable companies desirous of engaging in manufacturing.—There are two seams of bituminous coal of superior quality, about 4 feet in thickness each, so that great elements of manufacturing can be furnished at this point at the very cheapest rate, which, together with being in the centre of the Pig Iron market, induces the Company to believe that, at no point can the manufactures of Iron in its various departments be more successfully prosecuted.

In the space of an ordinary advertisement, all of the advantages of the position of Ashland, as a great manufacturing and commercial point cannot be fully set forth, and the company are therefore constrained at present to invite personal inspection, satisfied that the strictest examination will only redound to their great advantage.

In all sales of lots and donations of real estate the company have resolved upon the incorporation of provisions in the conveyences against the sale of spirituous or intoxicating liquors.

The Terms of sale will be, one third cash in hand and the balance in two equal payments at one and two years, bearing interest from the day of sale.

A lithograph of the town as laid out may be seen at the office of the company in Ashland and at the principal river points.

☞The following is the closing of an obituary of an editor, published recently, which will certainly bear repeating. The writer says:

"Are we not also glad that such an editor is in heaven? The cry of 'more copy,' shall never again fall upon his distracted ears.—There he will never more be abused by his political antagonists, with more lies and detractions that would scant a dozen to promulgate. There he shall no more be used as a ladder for the aspiring to kick down as soon as they reach the desired height, and need him no more. There shall he be able to see the immense masses of mind he has moved, all unknowingly and unknown as he has been, during his weary pilgrimage on earth. There he will find all articles credited, not a clip of his thunder stolen, and there shall be no horrible typographical errors to set him in a fever. We are glad the editor is in heaven.

San Francisco.—The steamer Secretary, Captain Travis, burst her boiler in the bay on the 15th ult. About 60 passengers were on board at the time of the explosion, over 20 of which were killed, and many others were seriously if not mortally wounded. The steamer was racing with the Nevada, and the engineer, who was killed on the spot, had (as it was proved) fastened an oar over the safety valve of the boiler in order to make more steam, &c., hence the awful massacre of human life. The Captain, E. W. Travis, who was privy to it, escaped uninjured, he having a few moments previously to the disaster told a friend of his that unless he wanted to be sent hastily into eternity to go to the extreme aft of the steamer, while he went into the extreme bows, and thus both escaped instant death (the boiler having bursted almost immediately after the warning.)

The hull of the Secretary was blown apart, the centre, fore, and aft showing that an enormous power had been in operation to produce so destructive an effect. The unit sunk at once, part of the bow and the hurricane deck remaining out of water, on which all those who escaped had taken refuge.

Dr. Simpson, of Edinburg, it is said, is working wonders with consumptive patients, by having them well rubbed with warm olive oil.—Some of the patients have increased thirteen pounds in weight in seven or eight weeks.

$500 REWARD!!!

DR. C. A. PERKINS & CO. continue to be consulted at their office, on Second street, between Main and Market, Louisville, Ky., relative to all diseases of a private or delicate nature.

By a long course of study, and practical experience of an unlimited extent we have now the gratification of presenting the unfortunate with remedies which have never failed to cure the most alarming cases of GONORRHŒA and SYPHILIS.

Beneath is a treatise on all the horrors of Seminal and Impure Blood, Impotency, Sexual Debility, Gleets, Strictures, Chordee, Pains in the Back, Diseases of Procreation, Inflammation of the Bladder and Kidneys, Dysuria, Diabetes, Ulcers, and the long train of frightful consequences attending this class of diseases, are made to become harmless as the stimulating of a child.

SEXUAL WEAKNESS.—Dr. P. & Co. devote a great part of their time to the treatment of those cases caused by a secret and solitary habit, which ruins the health of a man, inflicting the unfortunate individual for either business or society. Some of the sad and melancholy effects produced by early habits of youth are Weakness of the Back, Dizziness, Dimness of Sight, Pimples on the Face, Nervousness, Loss of Memory, Confusion of Ideas, Palpitation of the Heart, Symptoms of Consumption, &c. The fearful effects on the mind are much to be dreaded. Loss of Memory, Confusion of Ideas, Symptoms of Insanity, &c., are frightful attendants. Who can say that they are not sometimes followed by premature graves. Therefore, before entering into the married state, consult a physician of experience, a graduate, and restore the mind and body to its former vigor.

A graduate of over eighteen years practice in the city.

Letters address to Dr. C. A. Perkins & Co., Louisville, Ky., will receive a prompt reply. Post Office box 1, and containing a fee, will receive immediate attention, and medicine sent to any part of the country, secure from observation. The strictest secrecy observed.

Holloway's Pills

To the citizens of the United States:—

I must humbly and sincerely thank you for the immense patronage which you have bestowed upon my Pills. I take this opportunity of stating that my ancestors and all American Citizens, and that I entertain hopes that concerns America and the Americans the most I very sympathies, so much so that I originally came and resided there for years. PURIFICATION OF THE BLOOD, LIVER AND BILIOUS COMPLAINTS.

The Citizens of the United States suffer much from disorders of the Liver and Stomach; scarcely any are free from the influence of these destructive maladies, hence the weak list. The fair sex perhaps the most handsome in the world, up to a certain period we, distressing to say, many loose their teeth and good looks, while yet in the hey day of life, such sad evils may be effectually remedied by continually keeping the blood pure, and the Liver and Stomach in a healthy action, when life will flow smoothly, and resemble a plain in a congenial clime, where an eternal spring appears to reign. As it regards the preservation of the human frame, and the duration of life, much may be effected, and I say fearlessly that health and life can be prolonged for many yea s beyond its ordinary limits, if Holloway's Pills are taken to purify the blood according to the rules laid down for health contained in the directions which accompany each box.

A CASE OF WEAKNESS AND DEBILITY, OF 10 YEARS STANDING, CURED BY HOLLOWAY'S PILLS.

Copy of a Letter from Captain John Johnson, Astor House, New York, dated January 5th 1854

To Professor Holloway, 78, Corner of Ann and Nassau Streets, New York.

Sir—It is not the most least of pleasure I have to inform you that I have been restored to health and strength by taking your Pills. For the last ten years, I suffered in a derangement of the Liver and Stomach, and was reduced to such an extremity that I gave up my hope, never expecting to go to Sea any more, as I had tried every Remedy, that was recommended to me but all to no purpose; and had given myself up to despair, when I was at last recommended to take your Pills. After using them for three months the result is that I am now in better health than I have been for eleven years past, and indeed as well as ever I was in my life. You are at liberty to make this known for the benefit of others. I remain, Sir, yours respectfully,

Signed JOHN JOHNSON.

She had not her regular menstrual discharges for a long time; but by the use of Dr. Guysott's Yellow Dock and Sarsaparilla was rapidly restored. She used Townsend's and others, without receiving the slightest benefit. He had one daughter to die from the same disease.

AYER'S PILLS.

FOR ALL THE PURPOSES OF A

FAMILY PHYSIC.

THERE has long existed a public demand for an effective purgative pill which could be relied on as sure and perfectly safe in its operation. This has been prepared to meet that demand, and an extensive trial of its virtues has conclusively shown with what success it accomplishes the purpose designed. It is easy to make a physical *pill*, but not easy to make the best of all *pills*—one which should have none of the objections, but all the advantages, of every other. This has been attempted here, and with what success we would respectfully submit to the public decision. It has been unfortunate for the patient hitherto that almost every purgative medicine is acrimonious and irritating to the bowels. This is not. Many of them produce so much griping pain and revulsion in the system as to more than counterbalance the good to be derived from them. These *pills* produce no irritation or pain, unless it arise from a previously existing obstruction or derangement in the bowels. Being purely vegetable, no harm can arise from their use in any quantity; but it is better that any medicine should be taken judiciously. Minute directions for their use in the several diseases to which they are applicable are given on the box. Among the complaints which have been speedily cured by them, we may mention Liver Complaint, in its various forms of Jaundice, Indigestion, Languor and Loss of Appetite, Listlessness, Irritability, Bilious Headache, Bilious Fever, Fever and Ague, Pain in the Side and Loins; for, in truth, all these are but the consequence of diseased action in the liver. As an aperient, they afford prompt and sure relief in Costiveness, Piles, Colic, Dysentery, Humors, Scrofula and Scurvy, Colds with soreness of the body, Ulcers and impurity of the blood; in short, any and every case where a purgative is required.

They have also produced some singularly successful cures in Rheumatism, Gout, Dropsy, Gravel, Erysipelas, Palpitation of the Heart, Pains in the Back, Stomach, and Side. They should be freely taken in the spring of the year, to purify the blood and prepare the system for the change of seasons. An occasional dose stimulates the stomach and bowels into healthy action, and restores the appetite and vigor. They purify the blood, and, by their stimulant action on the circulatory system, renovate the strength of the body, and restore the wasted or diseased energies of the whole organism. Hence an occasional dose is advantageous, even though no serious derangement exists; but unnecessary dosing should never be carried too far, as every purgative medicine reduces the strength, when taken to excess. The thousand cases in which a physic is required cannot be enumerated here, but they suggest themselves to the reason of every body; and it is confidently believed this pill will answer a better purpose than any thing which has hitherto been available to mankind. When their virtues are once known, the public will no longer doubt what remedy to employ when in need of a cathartic medicine.

AYER'S CHERRY PECTORAL,

For the rapid Cure of

COUGHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING-COUGH, CROUP, ASTHMA, AND CONSUMPTION.

THIS remedy has won for itself such notoriety from its cures of every variety of pulmonary disease, that it is entirely unnecessary to recount the evidences of its virtues in any community where it has been employed. So wide is the field of its usefulness, and so numerous the cases of its cures, that almost every section of the country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs which are incident to our climate. And not only in formidable attacks upon the lungs, but for the milder varieties of COLDS, COUGHS, HOARSENESS, &c.; and for CHILDREN it is the pleasantest and safest medicine that can be obtained.

As it has long been in constant use throughout this section, we need not do more than assure the people its quality is kept up to the best that it ever has been, and that the genuine article is sold by—

The best Remedy ever known to Man

For Coughs, Colds, Asthma, Croup, Bronchitis, Influenza, Bleeding of the lungs, Difficult-Breathing, Liver Affections, Pain or Weakness of the Breast or Side, &c., &c.

INFLUENZA AND CONSUMPTION.—It is indeed a melancholy truth, that thousands fall victims of Consumption every year from no other cause than neglected colds, yet we find hundreds and thousands, who treat such complaints with the greatest indifference, and let them run on for weeks, and even months, without thinking of the danger. At first, you have what you consider a slight cough or cold: allow business, pleasure, or carelessness to prevent you from giving it any attention: it then settles upon your breast, you become hoarse, have pains in the side or chest, expectorate large quantities of matters, perhaps mixed with blood; a difficulty of breathing ensues, and then you find your own foolish neglect has brought on this complaint. If, then, you value your life or health, be warned in time, and don triwith your cold; but immediately procure a bottle or two of that famous remedy *Dr. Wistar's Balsam of Wild Cherry*, which is well known to be the most speedy cure ever known, as thousands will testify whose lives have been saved by it.

For Influenza it is the best medicine in the world.

Be not deceived, remember that it is *Dr. Wistar's Balsam of Wild Cherry*, that performs the most wonderful cures, and it is the remedy that will afford you immediate relief.

Two lives saved by the use of only three bottles of 'Wistar's Balsam of

Not a particle of Mercury in it.

An Infallible Remedy for Scrofula, King's Evil, Rheumatism, Obstinate Cutaneous Eruptions, Pimples or Pustules on the Face, Blotches, Boils, Chronic Sore Eyes, Ring Worm or Tetter, Scald Head, Enlargement and Pain of the Bones and Joints, Stubborn Ulcers, Syphilitic Disorders, Lumbago, Spinal Complaints, and all Diseases arising from an Unbalanced use of Mercury, Imprudence in Life, or Impurity of the Blood.

This valuable Medicine, which has become for the number of extraordinary cures effected through its agency, has upended the proprietors, at the urgent request of their friends, to offer it to the public, which they do with the utmost confidence in its virtues are wonderful curative properties. The following certificates, selected from a large number, are however, stronger testimony than the mere word of the proprietors, and are all from gentlemen well known in their localities, and of the highest respectability, many of them residing in the city of Richmond, Virginia.

F. Boyden, Esq., of the Exchange Hotel, Richmond known every where, says he has seen the Medicine called CARTER'S SPANISH MIXTURE administered in over a hundred cases, in nearly all the diseases of which it is recommended, with the most astonishing good results. He says it is the most extraordinary remedy he has ever seen.

Ague and Fever—great cure.—I hereby certify, that for three years I had Ague and Fever of the most violent description. I had several Physicians, took I don't quantities of Quinine, Mercury, and I believe all the Nostrums advertised, but all without any permanent relief. At last I tried CARTER'S SPANISH MIXTURE, two bottles of which effectually cured me, and I am happy to say it have had neither Chills or Fever since. I consider it the best Tonic in the world, and the only medicine that ever reached me case. JNO. LONGDEN.

Beaver Dam, near Richmond, Va.

C. B. LUCK, Esq., now in the city of Richmond, and for many years in the Post Office, has such confidence in the astonishing efficacy of CARTER'S SPANISH MIXTURE, that he has bought upwards of 50 bottles, which he has given away to the afflicted. Mr. Luck says he has never known it to fail when taken according to directions.

Dr. MINGE, a practising Physician, and formerly of the City Hotel, in the city of Richmond, says he had witnessed in a number of instances the effects of CARTER'S SPANISH MIXTURE which were most truly surprising. He says in a case of Consumption, the decided on the Liver, the good effects were wonderful indeed.

Samuel M. Drinker, of the firm of Drinker & Morris Richmond was cured of Liver complaint of 8 years standing, by the use of two bottles of Carter's Spanish Mixture.

Great cure for Scrofula.—The Editors of the Richmond Republican had a servant employed in their press room, cured of violent, Scrofula, combined with Rheumatism, which entirely disabled him from work. Two bottles of Carter's Spanish Mixture made a perfect cure of him, and the Editors, in a public notice, say they "cheerfully recommend it to all who are afflicted with any disease of the blood."

Still another cure of Scrofula.—I had a very valuable boy cured of Scrofula by Carter's Spanish Mixture and consider it a truly valuable medicine. James M. T. Taylor, Conductor on the R. F. & P. R. R. Co., Richmond Va.

Salt Rheum of 20 years Standing Cured.

Mr. John Thomasson, residing in the city of Richmond, was cured by three bottles of Carter's Spanish Mixture, of Salt Rheum, which he had nearly 20 years, and which all the physicians of the city could not cure.

Mr. Thompson is a well known merchant in the city of Richmond, Va., and his cure is most remarkable.

Wm. A. Matthews, of Richmond, Va., had a servant cured of Syphilis, in the worst form, by Carter's Spanish Mixture. He says he cheerfully recommends it, and considers it an invaluable medicine.

Richard E. West, of Richmond was cured by of Scrofula, and what Physicians called confirmed Consumption, by three bottles of Carter's Spanish Mixture.

Edwin Burton, Commissioner of the Revenue, says he has seen the good effects of Carter's Spanish Mixture in a number of Syphilitic cases, and says it is a perfect cure for that horrible disease.

Wm. G. Harwood, of Richmond, Va., cured of Old Sores and Ulcers, which disabled him from walking.—Took a few bottles of Carter's Spanish Mixture, and was enabled to walk without a crutch, in a short time permanently cured.

THE name of Salamander was first applied to Wilder's Patent and introduced by the subscriber in 1840, who in 1841 purchased the right to manufacture. The superiority of Herring's (Wilder's Salamander Safes over all others induced many to infringe upon the patent right by using the composition, other more cautious, and to evade a lawsuit, made an inferior article, imitating the exterior in form, style, color of painting, and attaching the name "Salamander," "Improved Salamander," "Fire Proof Salamander," "The Genuine Salamander," &c., &c., and have succeeded in palming off some of the various Salamanders as genuine. Those wishing the original Salamander, manufactured by the subscriber, should take the precaution to see that they have upon them a metal plate—"Silas C. AFFLICTED READ!!

PHILADELPHIA MEDICAL HOUSE.—I have had 20 years ago the Dr. KINKELIN, corner of Third and Union sts., between Spruce and Pine, Philadelphia, Pa.

INVALIDS

Are apprised that Dr. KINKELIN confines his practice to a particular branch of Medicine, which engages his undivided attention. He cautions the unfortunate against the use of mercury; thousands are annually mercurialized out of life. Recent affections are promptly extinguished.

TWENTY YEARS EXPERIENCE.

In the treatment of a class of disease hitherto neglected and imperfectly understood, has enabled Dr. KINKELIN, (*Author of a work on Self Preservation*) to prove that nine tenths of the causes of nervous debility local and constitutional weakness, mental and physical suffering, are traceable to certain habits, forming the most secret yet deadly and fatal springs of domestic misery and premature mortality.

TAKE PARTICULAR NOTICE.

There is an evil habit sometimes indulged in by boys, in solitude, often growing up with them to manhood, and which, if not reformed in due time, not only begets serious obstacles to matrimonial happiness, but gives rise to a series of protracted, insidious, and devastating affections. Few of those who give way to this pernicious practice are aware of the consequences, until they find the nervous system shattered, lost strange and unaccountable feelings, and vague fears in the mind.

The unfortunate thus afflicted becomes lonely, is unable to labor with accustomed vigor, or to apply his mind to study, his step is tardy and weak, he is dull, irresolute, and engages in his sport with less energy than usual.

If he emancipate himself before the practice has done its worst, and enter matrimony, his marriage is unhappy and his sense tells him that this is caused by his early follies. *These are considerations which should awaken the attention of those similarly situated.*

MARRIAGE

Requires the fulfilment of several conditions, in order that it may be really the cause of mutual happiness. Could the veil which covers the origin of domestic wretchedness be raised, and its true source in every instance discovered—in how many could it be traced to physical disqualifications and their attendant disappointment! Apply them while it is yet time, in order to have your strength and vigor restored organization restored, revitalized and strengthened.

REMEMBER

He who places himself under Dr. KINKELIN'S treatment may religiously confide in his honor as a gentleman and rely upon the assurance, that the secrets of Dr. K's patients will never be disclosed.

Young men let no false modesty deter you from making your case known to one who from education and respectability, can certainly befriend you.

Too many think they will conceal the secret in their own hearts, and cure themselves. Alas! how often is this a fatal delusion, and how many a promising young man, who might have been an ornament to society, has faded from the earth.

Strictures of the urethra are rapidly removed by the application of a new therapeutic agent, used solely by Dr. K. *Hopeless and constitutional debility promptly cured, and fair hope restored.*

COUNTRY INVALIDS

Can have (by stating their case explicitly, together with all their symptoms, per letter enclosing a remittance) Dr. K's medicine, appportioned accordingly.

☞ Forwarded to any part of the United States, and packed secure from DAMAGE or CURIOSITY.
